

VoIP Phone (KE1021A)

Net2Phone's VoIP Phone enables broadband users to place low-cost VoIP calls all over the world

In addition, the VoIP Phone is an ideal complement to the VoiceDirector corporate calling solution

VoiceDirector Solution

With the VoIP Phone, businesses can save by enabling employees to make low-cost calls from headquarters and home/satellite offices. The VoIP Phone is completely compatible with the VoiceDirector corporate calling solution and can be easily and economically implemented at any location on the VoiceDirector network.

By providing a familiar calling experience, the VoIP Phone facilitates a rapid deployment and return on investment (ROI).

Value-Added Features

The VoIP Phone also provides you with:

- A full range of calling features including speed dial, Caller ID and storage for up to 120 telephone numbers
- An auto upgrade feature that automatically updates your VoIP Phone with the latest firmware
